BELIEVE in the dream

COCOA PACKS CAPITAL CAMPAIGN

The Cocoa Packs Capital Campaign will generate funds necessary to build a future for Cocoa Packs where we will continue intentionally leading with love and care to make a difference in the life of children for years to come.

COCOA PACKS *at a glance*

How we've grown

Since our founding in 2015, Cocoa Packs has expanded from locker space in the Hershey Middle School to operating in seven current locations.

Children We Assist

Cocoa Packs provides services to over 1,300 children from 18 school districts and across several counties

Services we provide

In addition to weekly food packs, children actively enrolled have access to our extension services, which contribute to enhancing their overall emotional and physical wellness.

Invest IN THE FUTURE

The model of support Cocoa Packs has developed provides the capacity to assist many more children, however the operational and logistical challenges that are presented by operating out of multiple spaces is not sustainably efficient.

By investing in the future, your contribution will pave the way to assisting more children, modeling service in our community, and creating a space rooted in the value of love where all are welcome.

For More Information
